PROFESSIONAL EXPERIENCE

Oct 2020 - Present

WEBSITE DEVELOPER

- Designed websites, portals and large-scale web applications for multiple clients.
- Implemented improvements to boost site performance.
- Validated code for proper structuring, security and compatibility with different browsers, devices or operating systems.
- Reviewed information and elements regularly on websites and pages for accuracy and functionality.

Additional Activities

- Actively listened to customers' requests, confirming full understanding before addressing concerns.
- Participated in team-building activities to enhance working by web programming
- Enthusiastic and interesting in IT.I recently began to be fascinating by web programming.
- Participate in communities are often motivated me to help others and to make a positive impact in the communities.

EXPERIENCE

WEB DEVELOPER

I have an extensive knowledge of HTML, CSS(also SCSS), JAVASCRIPT, REACTJs, NODE ,EXPRESSJS and BOOTSTRAP. Combined with my communication and problem-solving skills.

EXPERIENCE

- Incubatee at Nic jamshoro ,working as a web develper
- at Evolve(startup)
- Intern at KAAMSAY
- ReactJS Developer(March'22-May'22)
- Full Stack Web Developer Intern at SAYABIDEVS
- Web Developer(Jan'23-Feb'23)

Additional Information

MERN STACK DEVELOPER

- As a MERN stack web developer, I possess a comprehensive understanding and proficiency in developing full-stack applications using the MERN (MongoDB, Express.js, React.js, Node.js) technology stack. With a solid foundation in both front-end and back-end development, I have honed my skills in creating dynamic, scalable, and responsive web applications.
- On the back-end, I have worked extensively with Node.js, utilizing its event-driven and non-blocking I/O model to develop robust server-side applications. I have built RESTful APIs and implemented authentication and authorization systems using technologies such as JSON Web Tokens (JWT) and OAuth.

Throughout my career, I have utilized Express.js to develop flexible and modular server-side applications, handling routing, middleware, and API endpoints. I am skilled in working with third-party APIs and integrating external services to enhance the functionality of web applications.

Additionally, I have a solid understanding of HTML, CSS, and JavaScript, enabling me to effectively collaborate with designers and implement pixel-perfect front-end designs. I am well-versed in using modern front-end tools and frameworks such as Bootstrap, Material-UI, and Sass to create visually appealing and responsive user interfaces.

With a strong focus on code quality, scalability, and performance optimization, I follow best practices and utilize testing frameworks like Jest and Enzyme to ensure reliable and robust codebases. I am familiar with version control systems like Git and have experience working collaboratively in agile development environments.

EDUCATION

Pre-Engineering

Hayat College Hyderabad

School

Piggot Memorial Higher Secondary School

Undergraduate Software Engineer

Mehran University Jamshoro

RECENT PROJECTS

- ECOMMERCE SHOPPING WEBSITE
- ACADEMIC WEBSITE
- AIRLINE SEAT RESERVATION WEBSITE
- EVENT MANAGEMENT WEBSITE(EVOLVE)
- BOOK STORE WEBSITE
- PORTFOLIO WEBSITE
- LOGIN & SIGNUP PAGE WITH EMAIL AUTHENTICATION USING FIREBASE
- COVID-19 TRACKER APP

OTHER ACTIVITIES

- Core team member of Google developer Student
- Club(GDSC)
- Member of Software Engineering Society(SES)
- Working as a head of team Management in Software Engineering Society
- Fundraiser in Women Tech Maker Hyderabad Pakistan(WTM)
- Member of Team Marketing in Cisco Community Hyderabad Pakistan
